

The screenshot displays the GitHub repository page for **VCJulianCorrea/PROG6212_POE_CMCS**. The repository is public and has 1 branch and 0 tags. The README describes the project as a CMCS for lecturers to upload claims and documents for coordinators and managers to review. It also mentions that a UML Diagram, some documentation, a project plan, and a basic GUI were created for Part 1.

PROG6212 POE - Contract Monthly Claim System

This is a project where I had to create a CMCS for Lecturers to upload their claims and documents for coordinators and managers to review.

What I did for Part 1

I made a UML Diagram, some documentation, a project plan, and a basic GUI of the system, which didn't turn out great.

Commits

- References added to Program class (61cc367) - 1 minute ago
- Bugs fixed (e981a0f) - 17 minutes ago
- All buttons fixed and rewired (d5364eb) - 27 minutes ago
- Merge branch 'master' of https://github.com/VCJulianCorrea/PROG6212_POE_CMCS (af8beb7) - 1 hour ago
- README.md has been written and improved (1a227cd) - 14 hours ago (Verified)
- Layout given more customization (af884fe) - 14 hours ago
- Displayability for multiple documents to all 3 views (e8174fe) - 14 hours ago
- Accept, verify and Deny Buttons added (b8fb4da) - 15 hours ago
- Improved File uploading system (0cbc249) - yesterday
- All views created (177850) - 2 days ago
- Half of the layout created. (797423c) - 2 days ago
